The Challenge You Face

Limited Resources

- • One parent teaching multiple subjects
- • Finding quality curriculum is exhausting
- • Expert teachers are expensive or unavailable
- • Hard to provide depth across all subjects

Your Children Deserve More

- • They're curious, but resources are limited
- • Standard curriculum doesn't inspire
- • They want to ask questions, not just memorize
- • You want them to think deeply, not just pass tests

What If…

What if your child could have a real conversation with Marie Curie about science,
discuss mathematics with Euclid, or explore literature with Shakespeare?

150+ Expert Teachers (10K Roadmap)

History's greatest thinkers, available 24/7. Scaling to 10,000 across 10 colleges.

Personalized Learning

SAMWISE: A 1:1 AI tutor that remembers your child's journey and adapts to their pace.

20+ Learning Products

Bibliotech (76K texts), interactive lectures, Homeschool lesson plans, Symposia, and more.

How This Helps Your Family

For Your Children

- ✓ **Learn at their own pace** – No rushing, no waiting
- ✓ **Ask unlimited questions** – Real conversations, not just reading
- ✓ **Explore their interests** – Deep dives into what fascinates them
- ✓ **Build critical thinking** – Inquiry-based learning, not memorization
- ✓ **Access to experts** – Learn from history's greatest minds

For You as a Parent

- ✓ **Reduce your workload** – Expert teachers handle complex subjects
- ✓ **Support your teaching** – Supplement, not replace, your role
- ✓ **Track their progress** – See what they're learning and exploring
- ✓ **Affordable access** – Quality education without expensive tutors
- ✓ **Peace of mind** – Your children learning from the best

What Your Children Will Experience

150+
AI Faculty
Scaling to 10,000

76K
Bibliotech Texts
177 faculty bookshelves

13
Encyclopædia Vols
Incl. Children's Edition

20+
Live Products
Built in 4 months

Bibliotech

76K texts – faculty bookshelves, marginalia, AI-assisted reading

Singh Lectures

Khan/MIT OCW by AI Faculty – interrupt, ask, debate

Symposia

4 formats: drinking party, Faculty Club, Salon, Debate

Homeschool Plans

Montessori & Waldorf lesson plans with credentials

Encyclopædia

13 volumes + Children's Edition by history's great minds

iNQ Cards

Physical learning cards – $20/mo, QR-linked inquiries

Map of Inquiry

Gamified curriculum map – unlock regions as you learn

Learning Hardware & Tools

Atlas Devices

Purpose-built compute for learning

- • DS (dual-screen clamshell) or Classic tablet
- • TriCorder handheld for field work
- • Open firmware, no ads, no telemetry
- • Drop-tested, built for kids

terrAIn Robotics

Backyard robotics lab

- • RC construction vehicles on real soil
- • 4×8 ft bed – fits a shed or patio
- • Code, plan, watch robots dig
- • Home kit: $599-899

iNQ Cards

$20/mo physical subscription

- • 12 cards/month, beautiful line art
- • Scan QR → guided inquiry
- • Faculty, Expedition, Rare cards
- • Premium NFC & bamboo editions

Bibliotech (76K texts) + **Singh** (lectures) + **Atlas** (device) + **iNQ Cards** (physical) + **terrAIn** (robotics) + **Magisteria** (credentials)

Your Child's Learning Journey

Structured progression with tangible credentials – and a virtual campus to explore.

Micro-Credentials That Show Progress

Each micro-credential (10–25 hours) includes lectures, hands-on assignments, AI tutoring from **SAMWISE**, and automated assessment from **Beatrice**.

Your children progress through a **scholarly ladder**:

Apprentice → **Adept** → **Magister** – visible milestones that celebrate achievement.

Map of Inquiry & Virtual Campus

The curriculum is a **knowledge map** your children explore: cities are learning activities, regions are disciplines, and paths connect them.

Using **WorkAdventure**, children walk through an immersive virtual campus, meet Faculty like **a.Curie** and **a.Einstein**, and unlock new areas as they learn.

Tangible Outcomes

Code, models, projects, and verifiable credentials – not just grades.

Specializations

AI + Science, AI + Literature, AI + History, Agent Engineering, and more.

PersonAI Companion

Your child builds their own AI system as they learn – a companion that grows with them.

iNQ Cards – Hands-On Learning

Physical inquiry cards with beautiful line art – pre-linguistic, inviting sustained attention. **Inquiry before naming.** The knowledge is the product; the card is the artifact.

Monthly Card Packs – $20/mo

12 cards/month on thick card stock. Line art front, QR system back. Domains: animals, plants, science, locations, people. 7-year arc covers the full K–12 journey.

Scan any card and your child enters a guided inquiry – **Ægis** responds with age-appropriate content.

NFC Collector Decks – Tap & Learn

Premium cards with embedded NFC. Your child taps the card with a phone or tablet and the learning page opens instantly – magical for younger kids.

Faculty Cards unlock AI conversations: tap Darwin to explore evolution, tap Curie to discuss science.

Expedition Cards

Yellowstone, Amazon, Moon – unlock maps and missions on the Atlas for hands-on

Bamboo Artifact Sets

Laser-engraved bamboo cards – beautiful permanent artifacts for the family bookshelf

Same Knowledge, Any Card

QR scan, NFC tap, or type the URL – every card reaches the same living content

Real Examples

Your 8-Year-Old Loves Science

They can have a conversation with **Marie Curie** about radioactivity, ask **Einstein** about relativity in simple terms, or explore biology with **Darwin**. They ask questions, get thoughtful answers, and their curiosity is nurtured—not shut down.

"Mom, I asked a.Curie why things glow, and she explained it like I was her student!"

Your Teen Struggles with Math

Instead of frustration, they work with **Euclid** at their own pace. **SAMWISE** remembers where they got stuck last week and helps them build understanding step-by-step. They're not falling behind—they're building mastery.

"SAMWISE helped me understand geometry. It's like having a patient teacher who never gets tired."

Your High Schooler Wants Depth

They're ready for advanced work. They can join a **Symposium** on philosophy with **Plato** and **Aristotle**,

You Need Support

You're not alone. **SAMWISE** helps with lesson planning, **Faculty** provide expert content, and you can track progress

Why This Matters Now

Homeschooling is Growing

More families are choosing to homeschool, but quality resources are hard to find. **You want the best for your children**, but you can't be an expert in everything.

Your Children Are Ready

They're curious, they ask questions, they want to understand deeply. **They deserve teachers who can answer their questions** and inspire them to keep learning.

How It Works

Step 1: Sign Up

- • Create accounts for your children
- • Set up their learning profiles
- • Choose their interests and level
- • SAMWISE gets to know each child

Step 2: Explore

- • Browse 76K texts in Bibliotech
- • Watch Singh lectures – interrupt anytime
- • Join Symposia (4 social formats)
- • Use Homeschool lesson plans daily

Step 3: Learn & Grow

- • SAMWISE remembers their journey
- • Track progress across subjects
- • Earn micro-credentials
- • Build a portfolio of learning

It's that simple. Your children start learning immediately, and you can see their progress and engagement in real-time.

No contracts. **Cancel anytime**. **Transparent pricing**.

Pricing That Makes Sense

Free Tier

$0

Explore and discover

- ✓ Articles & recommendations
- ✓ Community access
- ✓ Limited Faculty conversations

- ✓ No credit card required

Family Membership

$49/mo

Whole family, all courses

- ✓ All 150+ Faculty (10K roadmap)
- ✓ 1:1 SAMWISE per child
- ✓ Courses & Magisteria
- ✓ Progress tracking & analytics
- ✓ Micro-credential certificates

iNQ Cards

$20/mo

Add-on or standalone

- ✓ 12 physical cards/month
- ✓ QR-linked to guided inquiries
- ✓ Faculty, Expedition, Rare cards
- ✓ Premium NFC editions extra
- ✓ 7-year K-12 arc available

Imagine Your Family's Experience

Here's what homeschooling with Castalia could look like:

Mom of 3, ages 8-14

Scenario

"My 10-year-old was struggling with math until she started working with a.Euclid. Now she actually enjoys geometry. And my 14-year-old has been having deep conversations with a.Turing about AI."

Homeschool Dad

Scenario

"I can't be an expert in everything, but my kids can learn from experts in everything. SAMWISE remembers what each child is working on, and I can see their progress. It's like having a teaching assistant for each subject."

Co-op Leader

Scenario

"Our co-op uses Castalia for advanced students. The Symposia are incredible– high schoolers having conversations I couldn't facilitate. And the micro-

Parent of a Bored Learner

Scenario

"My son was bored with standard curriculum. Now he's exploring engineering with a.daVinci and a.Tesla, and he's actually excited about learning again."

Your Concerns, Addressed

"Will this replace me as a teacher?"

No. We're here to support you, not replace you. You're still the primary teacher—we're giving you 150+ expert assistants who can answer questions, teach complex subjects, and inspire your children when you need help.

"Is this just another screen time?"

No. This is active learning through conversation, not passive consumption. Your children are asking questions, thinking critically, and engaging with ideas—not just watching videos.

"What if my child is behind/ahead?"

Perfect. SAMWISE adapts to each child's level. If they're struggling, it provides patient support. If they're advanced,

"Can I see what they're learning?"

Yes. You have full visibility into their conversations, progress, and achievements. You can see what questions

The Team Behind This

Daniel McShan, PhD

Founder / Custodian

- **PhD Computational Biosciences** (CU Med)
- **25+ years NASA**: Orion, Mars Phoenix, Stardust
- Father and educator
- Built this because education should be better

Why This Matters to Me

As a parent, I understand the challenges of homeschooling. You want the best for your children, but you can't be an expert in everything. This platform gives your children access to the greatest teachers in history—and gives you the support you need.

What Happens Next

Step 1: Try It Free

- • 14-day free trial
- • No credit card required
- • Set up your children's accounts
- • Explore with SAMWISE

Step 2: See the Magic

- • Watch your children engage
- • See them ask deep questions
- • Notice their excitement
- • Track their progress

Step 3: Continue Learning

- • Subscribe if it works for you
- • Cancel anytime, no questions
- • Join our homeschool community
- • Share your success stories

We're confident your children will love learning with history's greatest teachers. That's why we offer a 14-day free trial—no risk, no commitment, just see if it works for your family.

No contracts. Cancel anytime. Your satisfaction guaranteed.

An Invitation, Not a Sales Pitch

We're not asking you to buy a product.

We're inviting you to give your children access to the greatest teachers in history.

To support your homeschooling with expert assistance.

To see your children excited about learning again.

"Children are not things to be molded, but are people to be unfolded."

– Jess Lair

We've built something we believe in. We've shown you what it does. Now we're inviting you to try it–risk-free–and see if it works for your family.
